

I would like the FCC to know I fully support Satalite Radio ..I feel this is the best thing to happen to radio since FM became popular in the late 1960's .. Do to big business (record companies) control over radio I have been unable to listen to FM radio in years. Now I have a perfect outlet for my music needs and I want The National Association of Broadcasters to keep their hands off ! If they feel like they are losing listeners to satalite radio they ARE! But THEY need to improve their product not attack Satalite radio. Hands off ! I say.
